Solaredge battery distributors

Sealed maintenance-free batteries using gel electrolyte. Ideal for normal to high-temperature environments. Very popular for solar panel system energy storage due to their longevity and lack of fumes due to their sealed container.

The Absolyte GP industrial sealed battery by GNB Industrial Power is a VRLA battery that does not require added water for the life of the battery. The Absolyte GP VRLA design is inherently safer than conventional flooded lead-acid batteries.

GNB Absolyte Batteries include Seismic Zone 4 Racking and covers. Ideal for larger off grid or solar grid tie battery backup systems. Protective steel tray housings offer maximum installation flexibility. The GNB Absolyte GP is 1997 UBC/2001 CBC Seismic Zone IV qualified to stack horizontally up to eight high. This provides for high capacity in a small footprint. These replace the older Absolyte II series batteries.

Every Discover AES battery provides 10x the energy storage capacity over lead acid batteries and dramatically reduces your energy storage costs over the life of the system.

Lithium Ferro Phosphate (LFP) is the safest Lithium Ion chemistry available. No cobalt, risk of thermal runaway or fire. Design an energy storage system for your home, business or RV with a safe, simple, reliable and practical lithium ion battery solution.

Sealed maintenance-free batteries using fine-glass to hold electrolyte. AGM (Absorbed Glass Mat) batteries range from models ideal from very high to low-temperature environments.

Industrial quality, high capacity, sealed maintenance free batteries include Seismic Zone 4 Racking and covers. Ideal for uninterruptible backup energy storage for larger off-grid/grid-tie/wind/solar/generator island microgrid systems, microwave digital repeaters, military bases, hospitals and much more.

Deka Unigy II Spacesaver batteries are recommended for larger, battery-based solar, wind, hydro or hybrid systems that demand high performance on demand and a long cycle life. The AVR95 Cell delivers up to 28% more power in the same space compared to larger competitor models while maintaining a 20-year design life

Narada specializes in research, development and manufacture of high rate, deep discharge and intensive cycling service batteries that are available for sale to more than one hundred countries across Africa, Latin America, SE Asia and industry at low wholesale prices
