

# Solis inverter configurator

Solis inverter configurator

Single Phase Low Voltage AC-Coupled Inverter / Supports six different battery charging and discharging TOU (Time of Use) settings to lower your electricity bill

Single phase low voltage Off-grid Inverter / Compatible with lead-acid and lithium batteries, with multiple battery protection features / Compatible with any existing grid-tied PV system, option to upgrade

Single phase low voltage energy storage inverter / New PRO model provides solutions for demanding power scenarios / Generator connectivity with multiple input methods and automatic generator On/Off control

Single Phase Low Voltage Energy Storage Inverter / Generator-compatible to extend backup duration during grid power outage / Multiple inverters can operate together to form a microgrid

Three Phase High Voltage Energy Storage Inverter / Integrated 2/3/4 MPPTs for multiple array orientations / Industry leading 50A/10kW max charge/discharge rating

Three phase high voltage energy storage inverter / Industry leading 50A/10kW max charge/discharge rating / Pre-made Battery, Meter and CAN cabling to reduce installation time

Single Phase Low Voltage Energy Storage Inverter / Generator-compatible to extend backup duration during grid power outage / 10 seconds of 200% overload capability

Three Phase High Voltage Energy Storage Inverter / Generator-compatible to extend backup duration during grid power outage / Supports dual backup ports for intelligent control of critical and non-critical loads

Three Phase High Voltage Energy Storage Inverter / Generator-compatible to extend backup duration during grid power outage / Supports a maximum input current of 20A, making it ideal for all high-power PV modules of any brand

Three Phase High Voltage Energy Storage Inverter / Generator-compatible to extend backup duration during grid power outage / Supports Unbalanced and Half-Wave Loads on both the Grid and Backup Port
