South east solar and electrical

Here at SESE, our renewable energy specialists in Kent serve the whole of the South East, helping homes and businesses reduce their carbon footprint, energy costs and overall impact on the environment.

South East Solar & Electrical Ltd has over 15 years experience, we're fully accredited by NAPIT & NICEIC trade association and we have the expertise to offer a range of solutions to help you with every type of solar and electrical work.

Our "direct" supply chain means we don't suffer from product supply shortages for our customers like so many other businesses so that we can respond to your needs more quickly. At SESE we prioritise customer care and will work with you to offer the best and most affordable renewable energy choices and will be there to support you long after the installation process has been completed.

South East Solar and Electrical Limited is an introducer appointed representative of Ideal Sales Solutions Ltd T/A Ideal4Finance. Ideal Sales Solutions is a credit broker and not a lender (FRN 703401). Finance available subject to status. The rate offered is always provisional and will depend upon your personal circumstances, the loan amount and term.

Came across this company via checkatrade and they've been nothing but professional from the moment they first contacted me. I would highly recommend this company. hope be to be able to continue to use them in the future.

I requested a quote from SESE after having a quote done by another company. SESE came in at a much more competitive and realistic price to meet my requirements and expectations, and from start to finish, Gemma, was absolutely excellent. She took the time to explain it all to me and her responses were speedy and clear.

The communication from SESE has been excellent, they have obviously streamlined the service over time. It was so quick, hassle free and easy from start to finish. The workmen were all very polite and punctual, as well as clean and tidy and open to any questions we had. The install was seamless.

From initial approach, to site visit, to finalizing spec and cost, to installation. This team made the whole process smooth and I felt supported, 2 shout outs, to Ben in sales and Nikki the electrician. I would highly recommend

The electrical installation that SESE did has to rank as the best I've ever seen. The cable routing was a far neater job than I'd any right to inspect (and the panels on the roof look good too, but I've not been up there to check!)

South east solar and electrical

I would highly recommend South East Solar & Electrical. They are extremely professional and helpful. If you are looking to have solar panels installed and want amazing customer care, look no further than South East Solar. Thank you so much for all your help, especially to Will for assisting us with getting the app sorted ?

Brilliant service installing electric car charger on our property. Booked in an appointment for a weeks time, great communication from the advisor. Engineer friendly and professional, fitted the charger quickly and did great job with tidy cable clipping. Fantastic service all round!

I am extremely happy with our experience with SESE. Having researched numerous companies for our Solar Panel and Battery solution and receiving various quotes and surveys I found the whole process from SESE a clear winner in terms of price, professionalism and expertise. Our survey was conducted by Glen who was extremely courteous and helpful and set the tone for the whole engagement.
