

Top rated solar panel batteries

Top rated solar panel batteries

We rate batteries by reviewing storage capacity, power output, safety considerations, system design and usability, warranty, company financial performance, U.S. investment, price, and industry opinion.

SolarReviews" battery experts reviewed over a dozen lithium-ion home storage products to find the best ones for homeowners. Here are the five best home solar batteries of 2024:

We reviewed everything from performance and warranty to a brand's financial status and solar installer's opinions on the batteries to provide a holistic view of the best batteries for homes.

The Enphase Energy System with IQ 5P batteries is our pick for the best home solar battery of 2024. We're not the only ones who like Enphase batteries -- 46% of solar installers chose Enphase as their top battery brand in our 2024 Solar Industry Survey.

The IQ 5P is Enphase's latest battery, offering twice the power output of the company's other batteries. Its power output, design flexibility, 15-year warranty, and popularity among solar installers earned its #1 spot.

Tesla is often credited with making lithium-ion home storage mainstream with its ultra-sleek, reasonably priced Tesla Powerwall. Since its launch in 2015, the Powerwall remains one of the cheapest home storage options on the market while still performing great!

The new Powerwall 3 has a built-in hybrid solar inverter, 13.5 kWh of storage capacity, and an easy-to-use battery management system. According to installers, it's one of the easiest batteries to install, which helps keep costs low.

The introduction of the Canadian Solar EP Cube in 2022 was one of the most exciting announcements of the year. The EP Cube carries on Canadian Solar's tradition of offering great performance at a moderate price point.
